About the Institute

The AsmitA Institute of Organic & Natural Farming is an initiative of the AsmitA Health & Education Foundation, dedicated to promoting sustainable agriculture through practical education and field-based learning.

The Institute offers a unique opportunity to learn directly at AsmitA Organic Farms, an NPOP Certified Organic Farm, where participants gain hands-on experience in natural farming techniques, integrated farming systems, organic input preparation, water conservation, crop diversification, and sustainable farm management.

Whether you are a farmer, student, agri-entrepreneur, researcher, or someone passionate about agriculture, this programme is designed to equip you with practical knowledge that can be immediately implemented.

About the Founder

S. Muzaffar Hussain

Founder – AsmitA Organic Farms

With over 25 years of experience, S. Muzaffar Hussain has transformed Drought-prone barren land in Vidarbha into a nationally recognised model of sustainable agriculture.

His innovative work in organic farming, integrated farming, agroforestry, scientific water conservation, and premium spice cultivation has inspired thousands of farmers across India.

Dr. M. N. Venugopal

Retired Principal Scientist & Scientist-in-Charge
ICAR – Indian Institute of Spices Research (IISR)
Central Research Centre (CRC), Appangala

Dr M. N . Venugopal is a distinguished agricultural scientist and former Head of the Spice Division at the Indian Council of Agricultural Research (ICAR), with over four decades of expertise in spice research, crop diversification, and sustainable agriculture.

As the Principal Agricultural Advisor, he has been instrumental in providing scientific guidance to S. Muzaffar Hussain in developing AsmitA Organic Farms into a pioneering model of organic and natural farming. His expertise has enabled the successful introduction of high-value spice, horticultural, and agroforestry crops in Vidarbha, transforming a drought-prone landscape into a thriving, climate-resilient farming ecosystem. Through his continued mentorship, AsmitA Organic Farms has emerged as a recognised centre for agricultural innovation, farmer training, and sustainable farming excellence.

Awards & Recognition

Today, through the Institute, he shares his practical knowledge and experience with aspiring farmers and future agri-leaders.

Programme Highlights

Duration

6 Months (September 2026 – February 2027)

Batch Size:

15–25 Participants.

Training Schedule 2026 - 27

1st Session – 27th / 28th Sept' 2026

2nd Session – 24th / 25th Oct' 2026

3rd Session – 28th / 29th Nov' 2026

4th Session – 19th / 20th Dec' 2026

5th Session – 30th / 31st Jan' 2027

6th Session – 27th / 28th Feb' 2027

Session Timing

9:30 AM – 11:30 AM

Training Venue

AsmitA Organic Farms, Chhatarpur, Village Borda, Taluka Ramtek, District Nagpur, Maharashtra – 441401

An NPOP Certified Organic Farm offering real-time exposure to integrated farming systems, orchards, spice cultivation, water conservation, and sustainable agricultural practices.

Learning Methodology

- › Interactive On-field Group Discussion Sessions
- › Live Farm Demonstrations
- › 6 full Practical Sessions
- › Field Visits & Crop Observation
- › Expert Guidance by Muzaffar Hussain
- › Interactive Q&A Sessions

Course Fee

FREE

Certificate

Participants who successfully complete the programme will receive a Certificate in Organic & Natural Farming from the AsmitA Institute of Organic & Natural Farming (AIONF) of AsmitA Healthcare & Education Foundation.

Who Can Join?

Farmers • Aspiring Farmers • Agriculture Students • Entrepreneurs • Garden Enthusiasts
• Anyone Passionate About Sustainable Farming • Faculty from Agricultural Colleges & Universities

Course Curriculum

6-Month Certificate Programme in Organic & Natural Farming

Each session combines expert guidance, live demonstrations, field visits, practical activities, and interactive discussions.

SESSION 01

Soil Health & Farm Planning

Build the foundation of a productive farm.

Key Learning Areas

- › Understanding soil health & fertility
- › Soil testing & improvement techniques
- › Farm planning and land assessment
- › Crop selection based on climate & soil
- › Sustainable farm design

Practical Learning

- › Soil testing demonstration
- › Farm layout planning
- › Field observation

Organic Manures & Microbial Formulations

Feed the soil naturally for healthier crops.

Key Learning Areas

- › Organic nutrient management
- › Jeevamrut, Beejamrut & Ghan Jeevamrut, Gaukrupa Amrut and Gir Cow Management
- › Composting & Vermicomposting
- › Microbial formulations
- › Liquid organic fertilizers

Practical Learning

- › Preparation of organic inputs
- › Compost making
- › Microbial culture preparation

SESSION 02

SESSION 03

Natural Pest & Disease Management

Protect crops without harmful chemicals.

Key Learning Areas

- › Pest & disease identification
- › Natural and herbal pest control
- › Biological pest management
- › Integrated Pest Management (IPM)
- › Preventive crop care practices

Practical Learning

- › Herbal pesticide preparation
- › Pest identification
- › Crop health monitoring

Crop Planning & Intercropping

Design a profitable and climate-resilient farm.

Key Learning Areas

- › Crop planning throughout the year
- › Intercropping & mixed farming
- › Integrated farming systems
- › Fruits, spices & medicinal crops
- › Mango orchard management & varietal selection
- › Agroforestry & biodiversity conservation

Practical Learning

- › Intercropping models
- › Orchard planning
- › Integrated farm visit

SESSION 04

SESSION 05

Water Management, Mulching & Harvesting

Maximise every drop of water.

Key Learning Areas

- › Water conservation techniques
- › Rainwater harvesting
- › Drip & micro-irrigation systems
- › Mulching methods
- › Harvesting & post-harvest handling

Practical Learning

- › Drip irrigation demonstration
- › Mulching techniques
- › Water harvesting systems

Farm Economics, Marketing & Certification

Transform farming into a sustainable enterprise.

Key Learning Areas

- › Farm budgeting & financial planning
- › Value addition & branding
- › Direct marketing strategies
- › Government schemes
- › Organic Certification (NPOP & PGS)
- › Building a profitable farm business

Practical Learning

- › Business planning
- › Marketing strategies
- › Certification process overview

SESSION 06

Programme Itinerary

A Practical Learning Session at Asmita Organic Farms

Each monthly session combines classroom learning with practical field demonstrations, enabling participants to gain hands-on knowledge and actionable farming techniques.

9:30 AM – 9:45 AM

Registration & Welcome

- › Participant registration
- › Introduction to the day's session
- › Programme briefing

9:45 AM – 10:00 AM

Interactive Learning Session

- › Monthly farming topic
- › Scientific concepts explained in a simple, practical manner
- › Interactive discussion

10:00 AM – 11:00 AM

Live Farm Demonstration

- › Practical field demonstration
- › Observation of organic & natural farming techniques
- › Crop and soil management practices

11:00 AM – 11:20 AM

Interactive Q&A Session

- › Open discussion with experts
- › Addressing participant queries
- › Sharing practical farming experiences

11:20 AM – 11:30 AM

Session Wrap-up

- › Key takeaways
- › Monthly assignments & implementation tips
- › Closing remarks

Important Information

- ✓ Programme Duration: 6 Months (One Session Every Month)
- ✓ Session Timings: 9:30 AM – 11:30 AM
- ✓ Venue: Asmita Organic Farms, Chhatarpur, Village Borda, Taluka Ramtek, District Nagpur, Maharashtra – 441401
- ✓ Tea & Light Refreshments: Included
- ✓ Dress Code: Comfortable clothing, cap/hat, and closed-toe shoes suitable for farm activities
- ✓ What to Bring: Notebook, pen, water bottle, and a willingness to learn

Experience a Day of Learning Beyond the Classroom

Learn • Observe • Practice • Interact • Implement

Every session blends classroom learning with real-time farm experience, empowering participants with practical knowledge for sustainable and profitable farming.

Frequently Asked Questions (FAQs)

1. Who can enrol in this programme?

This programme is open to **farmers, aspiring farmers, agriculture students, entrepreneurs, home gardeners, and anyone interested in sustainable farming**. No prior farming experience is required.

2. Do I need any previous farming experience?

No. Whether you're a beginner or an experienced farmer, this programme is designed to provide practical knowledge that can be easily understood and implemented.

3. How is the programme structured?

The programme runs for **6 months**, with **one practical session held every month**. Each session is conducted on a designated Saturday from **9:00 AM to 1:00 PM** at AsmitA Organic Farms, Ramtek.

4. What topics will be covered during the course?

Participants will receive practical training in:

Soil Health & Farm Planning | Organic Manures & Microbial Formulations | Natural Pest & Disease Management
Crop Planning & Intercropping | Water Management & Harvesting | Farm Economics, Marketing & Organic Certification

5. Will the training be practical or classroom-based?

The programme follows a **hands-on learning approach**, combining classroom sessions with live demonstrations, field visits, practical activities, and interactive discussions at a working organic farm.

6. Will I receive a certificate after completing the programme?

Yes. Participants who successfully complete the programme will be awarded a **Certificate in Organic & Natural Farming by the AsmitA Institute of Organic & Natural Farming (AIONF)**.

7. Is there any course fee?

The **Founding Batch** is offered **completely FREE of cost**, as part of the AsmitA Health & Education Foundation's commitment to promoting sustainable agriculture and farmer education.

8. What should participants bring to each session?

Participants are advised to bring a **notebook, pen, water bottle, comfortable clothing, cap or hat, and closed-toe footwear** suitable for field activities.

9. What makes this programme different from other farming courses?

Unlike conventional training programmes, AIONF offers **real-world learning at an NPOP Certified Organic Farm**, where participants gain first-hand experience through live demonstrations and direct interaction with experienced practitioners.

10. How can I register for the programme?

You can register by **scanning the QR code, filling out the online registration form, or contacting our Course Advisor via phone or WhatsApp**. Seats are limited and registrations will be accepted on a first-come, first-served basis.
